3. Nature of provision

The provision of personal data is optional and the report can also be anonymous. The failure to provide any personal data will have no consequence on the reporter, but it may, however, affect the investigation of the report.

Anonymous reports will only be considered if they are adequately detailed, so as to reveal facts and situations related to specific contexts.

4. Processing locations and methods and data retention times

The data is collected and managed through the technological platform of Formalize ApS.

For completeness, we inform you that more information regarding the GDPR compliance of Whistleblowing Solutions Impresa Sociale S.r.l. can be found [here](#).

The collected data will be processed using electronic or otherwise automated, IT, and telematic tools, or through manual processing with logic strictly related to the purposes for which the personal data was collected and, in any case, in a way that ensures the confidentiality of the reporter's identity and the content of the reports and related documentation.

The data is retained for the time strictly necessary to manage the purposes for which the data itself is processed ("principle of storage limitation", Art. 5, EU Regulation 2016/679) or in compliance with the deadlines provided by current regulations and legal obligations.

In any case, the Data Controller practices rules that prevent the indefinite retention of data and therefore limits the retention time in compliance with the principle of data minimization.

5. Authorized subjects, data processors and data communication

The processing of data collected is performed by the Data Controller's internal staff, appointed for this purpose and authorised to perform processing according to specific instructions issued in compliance with current regulations.

The data collected, within the limits pertaining to the purposes of processing stated and in the event it is necessary or useful for the execution of the purposes itself, can be processed by third parties appointed by external Processors, i.e., according to cases, communicated to those subjects necessary for the correct completion of the aims set out in point 2.

The data collected can be provided, in the event of lawful request, solely in the cases envisaged by law, by the Legal Authority.

Under no circumstances will your data be circulated in any way.

The collected data will not be subject to transfer abroad.
